GLOBAL NETWORK OF OVER
115,000 EXCEPTIONAL
ENGINEERS IN 140 COUNTRIES.**

Welcome to IMechE Iberia

The IMechE Iberia Group has brought together university students, new graduates, CEng and experienced engineers from across Spain and Portugal, creating one of the most dynamic and proactive groups within the European Region.

Leading the way is very demanding, so we are always looking for people who are willing to help out with our events or have an innovative idea, challenge, competition, lecture or visit that they think might be of interest to their fellow members.

If this is your case, do not hesitate to attend this event and contact our Committee Members, we will be more than glad to give you our support and let you know how to get started.

Speakers on 6th June:

17.30h IMechE

Alex ATKINS
Deputy Chair

18.00h IMechE

Jaime GERVAS
Canary Islands Rep

18.30h AIPE

Alejandro GONZALEZ
COITF Manager

We will be happy to meet you personally.

Objectives

The main objective of IMechE Iberia is to provide value to each and every one of its 450 members (27% of which are women) by means of:

1. Conferences and technical lectures on engineering related topics
2. Industrial visits to leading engineering companies: Airbus, Petronor, Endesa.
3. Social networking events: dinners, social gatherings, etc.
4. Innovative challenges and competitions: Kilimanjaro Challenge, EngNow-17, Formula Student Learning Experience, Inspiring Girls, etc.

The ultimate goals of the group are:

- To promote technical and professional development of IMechE members in Iberia, through meetings and communication, by encouraging members to discuss papers, through the study of local engineering practice
- To achieve closer personal acquaintance and spirit of cooperation amongst members
- To provide a local point of contact with local engineering societies, located in Iberia, on all matters of mutual professional and technical concern
- To actively seek to promote the status of engineering within Iberia and the wider European community.
